About Unitron Hearing

Unitron Hearing creates high-value, easy-to use hearing solutions that make everyday listening easier for people with hearing loss. The Company works with hearing healthcare professionals around the world to deliver innovative hearing devices that meet the needs of every hearing loss and lifestyle.

e⁸

“My Element 8 hearing aids do what I expect hearing aids to do: really help people. Everything is crisper and clearer. I can hear birds outside and understand my granddaughter much more easily.”

– D. Reist, binaural Element 8 Power Behind-the-Ear wearer

Element™ 8 and you

- ▶ Ideal if your social time is spent at home and in other diverse environments (e.g. restaurants)
- ▶ Enjoy your conversations without having to make adjustments
- ▶ Highlights speech, even in noisy environments
- ▶ Brilliant sound quality

It's a personal choice

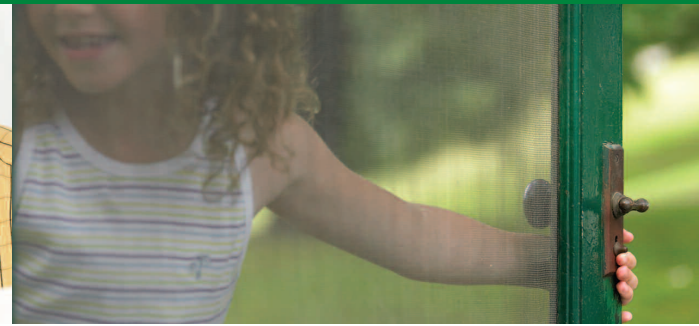

Everyone's lifestyles and budgets are unique, just as every person's hearing loss is unique. A choice of three models, Element 16, Element 8, and Element 4, allows you and your hearing healthcare professional to truly personalize your Element hearing instruments to your life. What's more is Element's brilliant sound quality provides the best listening experience so you can hear more of what you want to hear and less of what you don't.

Converse with ease

In conversational situations, Element 8's autoMic™ automatically adjusts to best amplify speech, so there's less need to change listening programs and more freedom to enjoy what's being said.

Enjoy every word

Speech enhancement provides even greater connections to your conversations by identifying and highlighting speech without making background noises louder.

Go ahead, slam the door

Element's antiShock™ technology removes the discomfort of sudden sounds that you don't want to hear, like a door slamming, without affecting the sounds you want to hear, like conversation.

Take comfort

Background noise and unwanted wind noise are suppressed with Element's two unique noise managers.

No whistling here

Element's sophisticated feedback canceller prevents the discomfort of whistling that can happen with any hearing instrument.

Pick up the phone

When you pick up the telephone or cell phone, easy-t automatically switches to a program optimized for telephone use.

Personalize your Element™

Element is available in a full range of styles and colors, including open fitting options, Moda™ and Moxi™.
