

Coach

Coach is here to back you up by providing everyday support to your in-clinic counseling. Clients receive personalised tips and information about what they can expect from their hearing instruments, all delivered straight to their smartphones with easy to understand content and videos.

A Sonova brand

Send them home with support

Your clients receive a lot of new information in one appointment – it can be overwhelming and difficult to remember. So how can you make the in-clinic experience more comfortable while ensuring they have the support they need when they walk out the door? You can't be there for them 24/7, but Coach can. Now your clients can receive timely, helpful tips, advice and reminders that extend and reinforce your counseling.

A continuous care feature providing ongoing support, instruction and encouragement beyond the clinic:

- Designed specifically to help new clients transition to their hearing instruments
- Easy, automatic support – you simply turn it on in Unitron's TrueFit fitting software, and clients receive help direct to their smartphone through the Remote Plus app*

You experience ...

- Time-savings and fewer follow-up calls
- The opportunity to provide a unique and memorable experience for new clients

Clients experience ...

- Peace of mind and satisfaction knowing they have assistance in managing the day-to-day needs and maintenance of their hearing instruments
- Less pressure to remember everything they learned in their fitting appointment

Ready to love the experience?
