HEAR THE WORLD

Recharged and ready for all-day listening.

Driven by Tempus

unitron. Hearing matters

A Sonova brand

The world's smallest rechargeable wrapped in award-winning design.

The time has come for a truly revolutionary rechargeable solution. Moxi™ Fit R is the world's smallest rechargeable hearing instrument, bringing ultimate flexibility to award-winning design. And because sometimes life requires a back-up plan, patients can swap the rechargeable battery cells with traditional zinc-air batteries at any time, so they never miss a conversation. This fully featured hearing instrument is the simplest to use, featuring a telecoil and push button for ultimate control. It doesn't get any easier than that.

### So easy for patients

#### Convenient

Patients get more than 24 hours of use\* on a simple overnight charge.

#### Flexible

Since it can use both rechargeable and traditional batteries, patients are never without power.

#### Eco-friendly

One rechargeable battery lasts a whole year, replacing up to 100 traditional batteries. Plus, it's fully recyclable.

\*With 90 minutes of wireless streaming

## Designed to get them talking

Moxi Fit R is available on Tempus™, our new platform that is the best in conversations. It wraps rechargeable convenience in our award-winning design that was developed with patient needs at its core. So you get a powerful solution for giving patients even more of the things they want.

 Driven by **Tempus**
